

Open the Power BI report in the folder above, and create the following report:

The picture you'll need is in the same folder. You'll also need to add an (arrow) shape and a matrix, and set conditional formatting for your matrix. As for how to sort the certificates ... see below!

To get the certificates to appear in the correct order, you'll need to sort them by the **CertificateId** column and not the **Certificate** one. To do this, select the **Certificate** column and choose this menu option:

Choose to sort the **Certificate** column by the **CertificateId** one, using this dropdown on the **Column tools** menu.
